Calling for Parent's Volunteer!

1. Be a Newscaster

Share Hot News with Our Students!

Our N2, K1, and K2 classes currently enjoy a weekly session where teachers share what's happening in Singapore. We are now seeking parents to volunteer as newscasters and share a piece of hot news with the children!

2. Share Your Occupation and Workplace

Inspire Our Students!

We invite you to share your occupation and workplace with our students. This is a great opportunity for your child and their peers to learn about different careers and gain insights into what it's like to work in your role.

If you're interested, please contact us via WhatsApp for more details.

Meaningful Together: Celebrating Mother's Day and Father's Day

Mother's Day

We invited mothers to join us for a day filled with joy and collaboration. The event began with heartfelt performances by the children, showcasing their talents and dedication. Mothers watched with pride and joy as their children sang, danced, and expressed their creativity. These performances not only entertained but also reinforced the importance of supporting and celebrating each other's achievements. Following the performances, we organized a sandwich-making activity where mothers and children worked side by side. This hands-on activity was designed to be both fun and educational, teaching children about cooperation, healthy eating, and the joy of creating something together. The shared task of making sandwiches fostered a sense of unity and accomplishment, as families bonded over the simple yet meaningful act of preparing food together.

Father's Day

We celebrated Father's Day in conjunction with the Dragon Boat Festival, providing a unique opportunity to bring together fathers and children to engage in cultural traditions that are often lost over time. Fathers were invited to join their children in a hands-on experience that began with tasting a variety of rice dumplings, a traditional delicacy of the Dragon Boat Festival. This tasting session allowed families to explore and appreciate the rich flavors and history behind this cultural treat.

Following the tasting, fathers and children participated in a rice dumpling-making workshop. This activity was both educational and engaging, teaching children the intricate process of making rice dumplings and allowing them to connect with their cultural heritage. Working together, fathers and children learned the importance of preserving traditions and the joy of creating something meaningful as a team.

This event highlighted the cultural significance of the Dragon Boat Festival by bringing families closer through shared activities. By reviving and celebrating traditional practices, we emphasized the value of cultural heritage and the importance of passing these traditions down to future generations.
